Dear Volunteers,

We are looking forward to celebrating our 39th Fishing Has No Boundaries Event, May 15 & 16, 2026 with you; please help us make this a safe and enjoyable event for everyone. Enclosed you will find the Registration Forms for the 2026 Hayward FHNBC event. Please feel free to make as many copies as you need. If you forget to pre-register, don't worry we won't turn you away and you can register on site. These forms can be found online on the website: haywardfhnbc.org

The event goes on all day long and sometimes the people that stay on shore have a little free time on their hands. If you are staying on shore, consider bringing a book, fishing pole or something to occupy your time when things get a little slow. Or you can check around we might need an extra set of hands on a project.

Many people volunteer for several areas; registration table can direct you to any areas where you can assist. Placing participants on watercrafts is the first order of business of the day. If you intend to help with docks (loading/unloading or manifest) be sure to attend the Dock Crew meeting on Friday morning.

Our insurance requires that every person who participates in the Event in any manner sign a Release of All Claims. Lost and stolen items are not covered, so please put your name on all your belongings and do not leave them unattended.

Due to volume of prep-work for the event we do not send out further correspondence regarding volunteering, and we look forward to you arriving at the Lake Chippewa Campground at the event weekend!

We look forward to a great event!!

Sincerely,

Jenny Overman
Office Manager
