

Fishing Has No Boundaries - Doris M. Ekstrom Scholarship

Doris participated in the Fishing Has No Boundaries, Hayward event for 20 years and always enjoyed attending, not only for the fishing, but to visit with friends she had met over the years. She was known for her smile and outgoing personality of always visiting with everyone. In December of 1985 she had toxic shock syndrome and in January of 1986 had both legs amputated below the knees and most of her fingers. After 17 weeks in the hospital she always said, "I went in the hospital on a gurney and walked out on new legs." She was now on her way to a new lifestyle, but that did not stop her. She was still able to fish with the help of a sleeve that fit on her left arm to hold her fishing rod and she had enough of her fingers on her right hand to be able to reel the fish in. In October of 2001 she was diagnosed with breast cancer and from then until her death in November of 2010 she kept her positive attitude.
